Mr. Phillips Very Ill.

Manager J. W. Phillips, of the Grand opera house, was very low last evening. He is troubled with a complication of erysipelas and heart troubles, and grave fears are entertained as to his recovery.

The Modern Woodmen.

Deputy Health Consul Falkenberg, completed the organization of a camp of Modern Woodmen in the A. O. U. W. hall on Monday evening. The camp will be known as 74. The following officers were elected and installed: Venerable consul, George W. O'Brien; worthy adviser, W. H. Cavers; excellent banker, Dr. C. R. Snowden; worthy clerk, M. V. Gilbert; worthy secretary, H. E. Miller; worthy treasurer, P. C. Cook; secretary, J. F. Kingsley; manager one year, Dr. H. A. Walker; manager two years, W. J. Eaves; manager three years, Dr. H. C. Dukes; Dr. J. L. Meyer and Dr. C. E. Couster, camp physicians.

The Delay of Juch.

Much disappointment was noticeable yesterday among the theatre-goers of Ogden over the late arrival of the Emma Juch opera company from Butte. The special train which bore the troupe should have arrived at 3 p.m. yesterday, but it failed to reach Ogden until 5:30 last evening.

The Juch company train arrived in two sections. The first, which was composed of three freight cars and three baggage cars, pulled into the union depot at 5:30. The last section arrived at 5:35, and was made up of one baggage car and four Pullman sleeping cars, which contained Juch and her enormous theatrical troupe.

As soon as the first section arrived, several teams were on the ground and a large force of men began to unload the scenery and baggage and transfer it to the opera house. The manager of the troupe ordered supper by telegraph at the Pacific hotel, and when the second section arrived all proceeded to the spacious dining halls while the baggage was being transferred. The report circulated yesterday afternoon that the delay of the train was caused by a wreck at Beaver canon was untrue. Deep snow at Butte prevented them getting an early start, and at several places along the road they were detained by deep snow.

A wreck occurred at Beaver Canon, but it was cleared in time for them to pass. The Grand opera house was filled before 8 o'clock. The audience waited patiently and at 10:30 "Carmen" was commenced.

The Blooded Horses.

The blooded horses that arrived from the immense farms of D. J. Reeves, Chico, California, were taken from the Grant avenue stables, loaded on the cars yesterday and sent eastward over the Union Pacific at 3:30 o'clock last evening, with the exception of those injured in the late wreck near Kelton, which will be sent back to California.

One car was sent on the Rio Grande passenger train night before last by way of Denver.

Business was very slack yesterday. Only the following cases were acted upon:

W. P. Parker et al. vs. C. R. Hank et al., sealed verdict for plaintiff for \$375. B. M. Short, no cause of action.

A. H. Nelson vs. John Harris; verdict for defendant, by dissection of the court. Stayed thirty days.

Total. \$1,300.

Police Court.

His honor, Judge Smyth, acted in the capacity of police magistrate yesterday. The following cases were at his disposal:

Thomas Hogan and A. C. Carter, two colored geats arrested for appropriating a quantity of beer from the cellar of a certain colored house of ill-fame were discharged for lack of proper evidence.

J. M. Highland, a plain drunk, without any of the adulterated qualities, was taxed the sum of \$5 and costs.

G. Coal, a Pullman car porter, was walked to the police station yesterday forenoon by Officer Hansen. The charge against the colored gent was refusing to act according to the orders of his superiors. Coal, which by the way, is only his police court title, arrived from the coast on the Southern Pacific railway yesterday.

A closed mail pouch is carried daily in one of the Pullman sleepers from San Francisco. When the train arrived here the agent at this place demanded the sack, which is the usual custom, in order that he might take out the Ogden mail and replace it with mail for the east from this point. The negro refused to give it up under any conditions. He was informed by Assistant Superintendent Haskell if he did not accede to the demand he could consider himself discharged from the service of the company and that his place would be filled by another party at once. The negro said refused, stating that he was told at Oakland not to let anyone open the sack until he delivered it in Chicago. Mr. Haskell soon became weary of such proceedings, and told the porter to deliver his keys, etc., to him.

and to get his own property out of the car as soon as possible. He still refused to obey orders and Officer Hansen was called to take him to the police station. The car continued its journey eastward, but in the hands of a new porter, and the ex-officer was allowed to go from the police station and embrace the free air of Ogden.

PRODUCE MARKET.

No improvement has been noticeable during the past week; business is reported not so brisk as heretofore. All lines are quiet and in some cases dull. Money indicates little change, if any, and there is a tendency towards more confidence and more cash seems to be available.

Contractors are looking around to make preparations for early commencement of business. As soon as spring opens with the large amount of unemployed labor in the city, it would seem to indicate that early contractors will get much cheaper work than later on in the season. The receipts for the last week have been some what larger than heretofore; a large amount of goods are coming in from the eastern states and prices have declined considerably. Oranges have been very plentiful in the market and sales in this line have been somewhat brisk. Potatoes are beginning to arrive in Salt Lake city in car-lots from the country from which there is a fair business. Pottery receipts continue inadequate for the demand and at times the market has been almost bare. Butter receipts have been plentiful with a good demand for a choice article and less demands for low grade. Grain receipts have been light but equal to the demand and prices continuing firm. Hay continues very dull with large offerings and very small sales; this article still continues to be a drug on the market.

OFFERINGS.

Wheat—This article is in excess of demand, millers are well stocked up and yet the railroads have not conceded anything in the matter of lowering the rates to consuming points, hence no exportation has commenced. We hope they will be able to do so, as it will bring a large amount of money into the territory and save carrying over a large stock of this grain.

Corn—This article has a very light demand; most of the dealers are fairly stocked up with very little outside shipment coming in or going out of the territory.

Oats—Prices still continue firm with a

supply equal to demand. Several cars were sold in the city during the past week at the regular prices at \$1.75 per cwt. Hay—The market is overstocked and the dealers are all loaded up. Our mild winter has made sales light and a large amount is being carried over. The storms of the past week will stop country dealers from hauling into the market, hence dealers anticipate some sales during this coming week; prices on this article have a strong downward tendency.

Poultry—The offerings on dressed poultry have been extremely light during the past week. Some days the market was entirely bare. Shippers would have netted good round figures on all stocks sent into the market during the past week, and we feel confident that the market will continue firm for some little time to come. Dressed chickens are commanding in the market from 13 to 15 cents per pound and dressed turkeys from 17 to 20 cents. Country merchants would do well to send in their surplus stocks while the market is good and firm.

Vegetables—Potatoes in car lots are beginning to come into the market and are selling at 75c. per bushel. Cabbage is arriving plentifully from California and selling at 25c. per pound. Onions are very scarce and we hear to-day of one retail store asking 10c. per pound for this article. Cauliflower and green peas are arriving from Los Angeles in small quantities, but the demand is good. Eggs are very plentiful, several large consignments having arrived from Kansas and Nebraska. Prices dropped during the past week from 85 to 75c., and dealers anticipate selling Kansas stock during the coming week at 87c. per case and asking 75c. for Utah's—Salt Lake Price Current.
